AI is becoming an increasingly important technology, and it has already integrated into much of our third party software. It is being used to power both internal operations and customer-facing applications. As a result, banks are improving a wide range of functions across the front, middle and back office - including customer service, fraud detection, wealth management and regulatory compliance. In this session, you will hear how leaders in the AI arena are helping banks seize this revolutionary moment.

NH BANKERS ASSOCIATION

2026 ANNUAL MEETING

JUNE 11, 2026 | GRAPPONE CONFERENCE CENTER, CONCORD, NH

12:50 PM- 1:45 PM

THE INTANGIBLE IT.

Jack Stahlmann, *Don't Flinch Guy*

Jack's longest standing keynote, **The Intangible It**, examines the "it" quality movie stars possess that you can't quite put your finger on...or can you? By sharing humorous tales of his Tinseltown adventures, Jack breaks down the "it" factor that makes certain actors' superstars and how to use those lessons to become a star in your profession.

You'll learn about **The Gift** and how to channel your inner-Clooney to make everyone you encounter feel important. We'll examine **The Shift** by exploring the secret that has given Tom Hanks such career longevity. And with **The Connect** we will dive into ways you can be more memorable to anyone you meet – and it might be as simple as wearing a Dolly Parton tee shirt. Really.

This presentation is the spoonful of sugar with the medicine because it delivers the fun and humor you want with the takeaways that you just might need.
